Experience

Working for Client XDBS (Ondirect) as a MIS Executive from April 2026 to Present.

- Managed and maintained daily, weekly, and monthly MIS reports using Microsoft Excel.
- Collected, cleaned, and validated data from multiple sources to ensure data accuracy and consistency.
- Used Pivot Tables, VLOOKUP/XLOOKUP, INDEX-MATCH, SUMIFS, COUNTIFS, IF, and Conditional Formatting for data analysis.
- Cleaned and standardized datasets by removing duplicates and applying Excel Text Functions for improved data quality.

Worked for Client AJ Techsoft as a Data Analyst from September 2025 to April 2026.

- Analyzed structured datasets using SQL and Python to generate actionable business insights.
- Built interactive Power BI dashboard to monitor KPIs and sales performance.
- Cleaned and transformed raw data using Pandas and Excel to improve reporting accuracy.
- Optimized SQL queries and automated weekly reports, reducing manual effort by 30%
- Analyzed data sets to identify trends and patterns for decision-making.
- Supported project management by maintaining organized documentation of findings.
- Prepared reports summarizing analysis results for stakeholder presentations.
- Utilized SQL to query databases and extract necessary information for analysis.

Projects

Project 1. Supply Chain Performance and Inventory Optimization Dashboard

Client: Midwest Distribution Solutions

Duration: 6 Month

- Analyzed 600K+ records from MySQL to monitor inventory turnover, shipment delays, and warehouse utilization.
- Built centralized KPI dashboards in Power BI to improve supply chain visibility and decision-making.
- Wrote optimized SQL queries and automated reporting to enhance operational efficiency.
- Used Python (Pandas, NumPy) to clean, transform, and analyze orders, shipment, and inventory data

Certificates

Python Programming : Covered Core Python, OOPs concepts, data structures, and file handling.

Education

06/2025	Bachelor of Technology (B.Tech) in Electronics and Computer Science
Sangli	PVPIT College
	CGPA: 7.2/10
